Art Unit: 2856

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

Re to claims 1, 15, and 20, the independent claim includes "a second acceleration sensor adapted to generate a second signal indicative of an acceleration of the along the axis, and a controller adapted to receive the first and second signal to calculate a depth, velocity, or both "in combination with the remaining claim limitation is not taught and/or made obvious by the prior art. As depicted in fig. 4, Rodney teaches a first acceleration sensor (64) mounted at a first position (64). Rodney teaches a second acceleration sensor (62) mounted at a first position (62). Rodney teaches an acoustic error testing device to remove acoustic signals from imaging. However, Rodney does not teach a second acceleration sensor adapted to generate a second signal indicative of an acceleration of the along the axis, and a controller adapted to receive the first and second signal to calculate a depth, velocity, or both.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tamiko D. Bellamy whose telephone number is (571) 272-2190.

The examiner can normally be reached on Monday - Friday 7:30 AM to 3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
